Objective:

To secure a full time position with a company providing technology products or services in the California bay area.

Experience:

Sr. Software Engineer

Oath / Yahoo

10/2017 – 10/2018

Sunnyvale, CA

As a member of the front-end search team I worked with Yahoo partners to integrate 3rd party content & APIs into search result pages, multiple market/language design customizations, advertising experiences & worked with a multitude of large scale in-house systems.

Full Stack Developer

The Alarm Guys, Inc.

10/2012 – 09/2017

Brentwood, CA

Development of all office systems, telephony servers, mobile apps & custom online assets including thealarmguys.com, electronic contracts & full CRM built with the Laravel framework. Utilized skills in PHP, MySQL, MSSQL, PostgreSQL, JavaScript, jQuery, HTML5, CSS, various REST APIs, networking & maintenance of multiple Linux & Windows servers.

Online Producer

Standard-Examiner

02/2011 – 04/2012

Ogden, UT

Cooperative development and maintenance of Standard.net with a primary focus on mobile applications, online ad systems, and news feed aggregation. Requires Graphics design, HTML, CSS, JQuery, MySQL, PHP, RESTful APIs & mobile site development for both Android and iOS devices.

Tech Support Engineer

Bluehost Inc.

01/2007 – 10/2007

Orem, UT

Phone and email support for web hosting customers. Resolving issues ranging from email and basic network configuration to corporate server security and maintenance.

Member Retention Consultant

America Online

02/2005 – 02/2006

Ogden, UT

Retention, up sales and billing for existing AOL customers. Often assisted new hire training and maintained 79% save rate with 98.7% member satisfaction.
